ALWAYS KEEP

IMPORTANT RULES AND MAINTENANCE:

- Before every use check that all the screws are correctly tightened with the right torque as described in this manual.
- Keep always the threaded holes and every connection between carbon and aluminum (mast and wings to fuselage) clean and greased with Lithium grease code [MHW033] to avoid and prevent oxidation and corrosion due to salt water.
- After every use disassemble and wash all the parts with fresh water and dry them using a soft cloth.
- Do not expose to extreme temperatures or direct sunlight over long periods. Do not expose to temperatures above 100° C / 212° F.
- Store the foil in a safe and dry place in order to prevent injury and damage.
- During assembly make sure that the sand does not get into the threads.
